

Himalayan Night 2020

Background:

Namaste Nepal is asking for \$650 to fund food for their annual Himalayan Night. The event will likely have an \$8 charge to students and had over 100 students attend last year. “The major cost of this event will be on the food items we purchase because that is the main reason why people attend this event. The event consists of two halves: in the first half, there will be four performances and then there will be a dinner break, then in the second half, there will be 4 trivia questions, one lucky draw, and 3 more performances.”

Decision:

The committee has decided to recommend \$250 in order to fund the catering costs, which handles the beverages and sodexo work, as well as the posters. The committee had a hard time working within the application provided but still felt that it is very important to fund cultural events for the campus.

Application
